INFORMATION FOR DISPOSING OF IQOS ILUMA i ONE™

Valid across European Union and EFTA

This symbol on the product or on its packaging indicates that this product and its individual parts (including batteries) must not be disposed of with your other household waste.

Instead, it is your responsibility to dispose of your waste equipment by bringing it to a designated collection point for the recycling of waste electrical and electronic equipment. In addition, waste batteries can be returned free of charge at the point of sale. The separate collection and recycling of your waste equipment (including batteries) at the time of disposal will help to conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. Disposing of waste equipment as unsorted municipal waste (e.g., by waste incineration or land filling) can have negative effects on the environment and human health. For more information about where you can drop off your waste equipment for recycling, please contact your local city office, your local household waste disposal service or the shop where you purchased the product. The local importer of the product will provide for the financing of the treatment and recycling of waste equipment returned through these designated collection points in accordance with local requirements.
